(Name)

_____
Signature

Note: Each paper must have its own certificate and the "Express Mail" label number as a part thereof or
attached thereto. When, as here, the certification is presented on a separate sheet, that sheet
must (1) be signed and (2) fully identify and be securely attached to the paper or fee it
accompanies. Identification should include the serial number and filing date of the application as
well as the type of paper being filed, e.g. complete application, specification and drawings,
responses to rejection or refusal, notice of appeal, etc. If the serial number of the application is
not known, the identification should include at least the name of the inventor(s) and the title of the
invention.

Note: The label number need not be placed on each page. It should, however, be placed on the first
page of each separate document, such as, a new application, amendment, assignment, and
transmittal letter for a fee, along with the certificate of mailing by "Express Mail". Although the
label number may be on checks, such a practice is not required. In order not to deface formal
drawings it is suggested that the label number be placed on the back of each formal drawing or
the drawings be accompanied by a set of informal drawings on which the label number is placed.
